

DIABLO6-DR-DIM-IC - DIABLO6 Dimmable Driver

Description

The DIABLO6-DR-DIM-IC driver has been designed to work with the DIABLO6 light engine. The 40mm diameter allows for easy installation through the same cut out as the luminaire. This not only makes installation simple but allows for easy access and wiring prior to fitting.

Dimensions

Specification

Dimming Option	Mains Dimmable (Leading Edge)
Type	Constant Current
Power	Max. 6W
Voltage	34-42V DC
Current	140mA
Input Voltage Range	220-240VAC
Power Factor	>0.9
Frequency Range	50/60Hz
Max Ambient Temperature	40°C
Min Ambient Temperature	-20°C
IP Rating	IP40
Short Circuit	Recovers Automatically After Fault Condition Is Removed
Overload	≥105%
Weight	63g
